

123 FENCING USER MANUAL

Welcome to the sport of fencing. 123 Fencing is a wireless scoring system that allows you to practice when and where you want. The scoreboard has full block-out. Once either fencer has scored, any more scores are blocked for a full three seconds.

The system has three components: a red transmitter, a green transmitter, and a scoreboard. Insert a transmitter's 5.5 X 2.1mm plug into a training sword or an epee with a suitable adapter. Turn on the scoreboard with the black switch and wait for the self-test to stop. Begin fencing. (If the buzzer is annoying it can be turned off with the red switch.)

For best results, make sure the antenna on the transmitter is fully extended and the scoreboard is mounted about head high and not near metal surfaces or other objects that can interfere with radio transmissions.

The scoreboard is powered by a 9V battery which can be replaced by opening the battery compartment.

INSTRUCTION TO THE USER

This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- * Reorient or relocate the receiving antenna.
- * Increase the separation between the equipment and receiver.

The user is cautioned that changes and modifications made to the equipment without the approval of manufacturer could void the user's authority to operate this equipment.

FCC ID: WIU123FENCING

This device complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference and
- (2) this device must accept any interference received, including interference that may cause undesired operation.
